1. What is Grow Wealth?

A clear way to stake USDT and earn daily income

Grow Wealth is a crypto platform where you deposit USDT on the BEP-20 network, activate your account, and earn every day. You can also invite friends with your referral link and earn from your team.

Getting started in 4 simple steps

01

Create your account

Sign up with your name, mobile, email, password, and BEP-20 wallet. If someone referred you, enter their sponsor ID.

02

Deposit USDT

Send USDT on BEP-20 (BSC) to the company address or QR. Then submit your Tx Hash. Admin checks it and adds fund to your account.

03

You get joined automatically

After a payment of \$1 or more is approved, your status becomes Joined. No extra click needed. ROI and withdraw unlock from here.

04

Earn and withdraw

Get 1% daily ROI on autopilot. Grow more with Direct and Level income. Withdraw to the wallet saved in your profile.

2. How you make money

Four ways your balance can grow

A) Daily ROI (1%)

- You get 1% credited every day, all 7 days of the week.
- It is based on your deposit or joining amount.
- Total ROI stops when you reach 2 times your investment.
- Example: if you stake \$100, you get about \$1 each day until \$200 total ROI.

B) Direct Income (5%)

- When a new member joins under your ID, you earn 5%.
- This is paid on the joining amount (minimum \$1).
- Example: one direct join can give you \$0.05.
- More direct members means more direct income.

C) Level Income L1 to L7 (ROI ka ROI)

- When someone in your team receives daily ROI, you can earn a share of that ROI.
- Each level unlocks after your own ROI reaches that level target.
- Rates: L1 10%, L2 12%, L3 15%, L4 17%, L5 20%, L6 23%, L7 25%.
- So you earn from your own stake and from team growth together.

D) Manual Compound

- You can move money from income balance back into fund balance.
- That increases the base used for your daily ROI.
- Compounding is manual. You decide when to do it.
- This helps you grow your stake over time.

3. Team level rewards

Unlock each level with your ROI target, then earn from team ROI

Before you earn from a level, your own total ROI should reach that level target. After that, you earn the level % from your downline daily ROI.

Level	Your share	Your ROI target
L-1	10%	\$500
L-2	12%	\$1,000
L-3	15%	\$1,500
L-4	17%	\$2,500
L-5	20%	\$4,000
L-6	23%	\$7,500
L-7	25%	No target

Easy example

Someone in your team earns \$5 ROI today.

If your L-1 is open (your own ROI is \$500 or more), you get 10% of \$5 = \$0.50.

If deeper levels are also open, you can earn from those team levels too.

Your own 1% daily ROI still runs separately on your stake.

Note: Your personal ROI cannot go beyond 2 times your investment.

4. Deposit, withdraw, and key rules

How money comes in and how you take it out

Deposit rules

- Use USDT only
- Network must be BEP-20 / BSC
- Min \$1 to join
- Submit Tx Hash after sending
- Admin checks the real on-chain amount
- Wrong network can mean lost funds

Withdraw rules

- Minimum withdraw is \$10
- Fee is 10% on every withdraw
- Amount goes to your saved BEP-20 wallet
- You must be Joined first
- Admin processes the payout
- Withdraw from income balance

Quick plan snapshot

Join from \$1. Daily ROI 1% every day. ROI cap is 2x. Compound is manual. Direct income is 5%. Level income is L1 to L7. Withdraw minimum is \$10 with 10% fee. Network is USDT on BEP-20.

Helpful tips before you start

1. Send USDT only on BEP-20 (BSC). Do not use ERC-20 or TRC-20 for this address.
2. Check your wallet address carefully before you request a withdraw.
3. Keep your Transaction Password private.
4. Remember the 2x ROI cap when you plan withdraws and compounding.
5. Use only the official site: grow-wealth-neon.vercel.app
